

## Function profile ENLIGHT student coordinator

In a bid to fundamentally revamp the EU's educational ecosystem, the Commission launched the European University Initiative for creating European Universities, a set of alliances between universities scattered around the EU27. From 2020 Ghent University can call itself a proud member of the ENLIGHT alliance along with 8 other partners. An important part of the entire ENLIGHT framework is the Student Network.

The Ghent Student Council is therefore looking for two student coordinators to represent the Ghent University students in the ENLIGHT Student Network.
